

WE KNOW KIDS. THEY DREAM BIG.

Our job is to help put as much heart into those dreams as possible.

Does your patient need a Pediatric Echocardiogram?

If so, pediatric heart services are available at Centers for Children offering real time, sub-specialized care within our accredited facility.

Available To Your Patient:

- A pediatric trained and credentialed Cardiac Sonographer is dedicated to exclusively serving your pediatric patients;
- Pediatric Echocardiograms performed in an accredited Intersocietal Commission for Accreditation of Echocardiography Laboratory (ICAEL);
- “Real-Time” viewing of your patient’s Echocardiogram by a Pediatric Cardiologist;
- Approval of study images is provided during your patient’s visit, ensuring essential image quality for interpretation;
- Interpretation of your patient’s Echocardiogram is performed by a Pediatric Cardiologist;
- Urgent heart conditions identified during your patient’s procedure are communicated immediately by a pediatric cardiologist;
- Echocardiogram results are faxed to you same day.
